

Essextec, Your Cognitive Solutions Partner

Uncover new business opportunities with a trusted advisor

OUR EXPERIENCE

- > Essextec **has advised 70+ clients** across industries including banking, media and entertainment, government and non-profit, high tech, retail and e-commerce, and many more on their AI journeys
- > Our **services are end-to-end – from strategic advisory to application development** and maintenance – making us an ideal partner for any and all cognitive services

- > Essextec has the **most experienced technologists**, both in AI broadly and in specialized areas such as **machine learning, virtual agents, advanced analytics, natural language processing, and insight extraction**
- > Our team includes advanced analytics PhDs and architects with decades of machine learning experience, pioneers in the field of cognitive search, and natural language processing veterans
- > **Our top team leads are your team leads** and work with you to achieve your goals

OUR PEOPLE

OUR APPROACH

- > Our approach is designed to **minimize initial investment and prove ROI**, to gain confidence and trust, before embarking on major projects
- > Our **focus is on helping you solve a business problem** - we are **vendor-agnostic** and will fit a technology architecture to your needs and budget
- > We are a **trusted advisor and your partner** - our US-based technologists work alongside client team every step of the way

Get started on your AI Journey today
